among the internet users in age group 16-64, copyright-infringing content is accessed by

27%

87%

teachers consider fair use essential to education

## FAIR USE IN EDUCATION

## COPYRIGHT

a legal concept that grants creators exclusive rights to their original works, such as literature, art, music, and software.

reproduction, distribution, and creation of derivative works

Copyright protection is automatic upon creation and has a limited duration.

## FAIR USE

a legal doctrine allowing the use of copyrighted material without permission under specific circumstances.

parody, criticism, satire, commentary, teaching, news reporting, research, scholarship

Aims to balance copyright holder rights with the public interest in free expression and information exchange.

Fair Use is **context-dependent, evaluated case by case**

determined by factors like

### purpose

original work transformed by adding new expression, meaning, or purpose; non-commercial mostly

### nature

factual and informational works more likely to be considered fair use than creative and original works

### amount

using a small, insignificant portion of the original work more likely to be considered fair use than using a large portion

### market impact

if the use serves as a substitute for the original work, potentially harming its market, it is less likely to be considered fair use

## EXAMPLES

- A brief clip from a documentary used during a history lesson to illustrate a historical event, and promote discussion
- Excerpts from a scientific paper used in a research project to analyze and discuss the methodology and findings.
- Images from an art book used to teach about different art movements
- Short clips from a film included in a class presentation to analyze cinematic techniques and storytelling methods
- Passages quoted from a novel in a lecture to provide examples of specific literary devices,
- Existing code used to write new programs
